## Main path and alternative flows :

### Main path:

From home page select if you want to create an account or log in. If you chose to create a new account enter the required information and click “Create Account” it will then send you to the login page. If you chose to log in and already have an account enter your credentials and click “sign In” it will send you to the chat page (not yet implemented).

## **Alternative flows:**

If you enter the wrong credentials or invalid information the login page or register page will tell you that there is an issue.

## **Demo Script :**

1. Go to <https://uniconnect.pixilie.net/>
2. Click on “Create Account”, if you already have an account click on “Sign In” and skip to step 5
3. Enter your full name, your email address, and a password
4. Click “Create Account”
5. Enter your email address and password
6. Click “Sign In”
7. You are now logged on the chat page (currently empty)
