

Sprint Review Package

Use case verification checklist:

UC-01 Log in to System:

- Valid credentials redirect to the dashboard within 2 seconds. **Implemented**
- Invalid credentials show a clear, red error message without page reload. **Implemented**

UC-02 Send Class Group Message:

- Message appears in the feed immediately. **Implemented**
- Sender's name and timestamp are visible. **Implemented**
- User cannot send a message to a class they are not enrolled in. **Implemented**

UC-03 Post Official Announcement:

- Only Delegates/Professors see the creation button. **Implemented**
- Announcements are visually distinct. **Implemented**

UC-04 Create Study Event:

- Event appears in the list timetable tab. **Implemented**
- Location field is mandatory. **Implemented**

UC-05 Vote for Class Delegate

- User can only submit one vote per election. **Implemented**
- Voting interface is disabled immediately after submission. **Implemented**

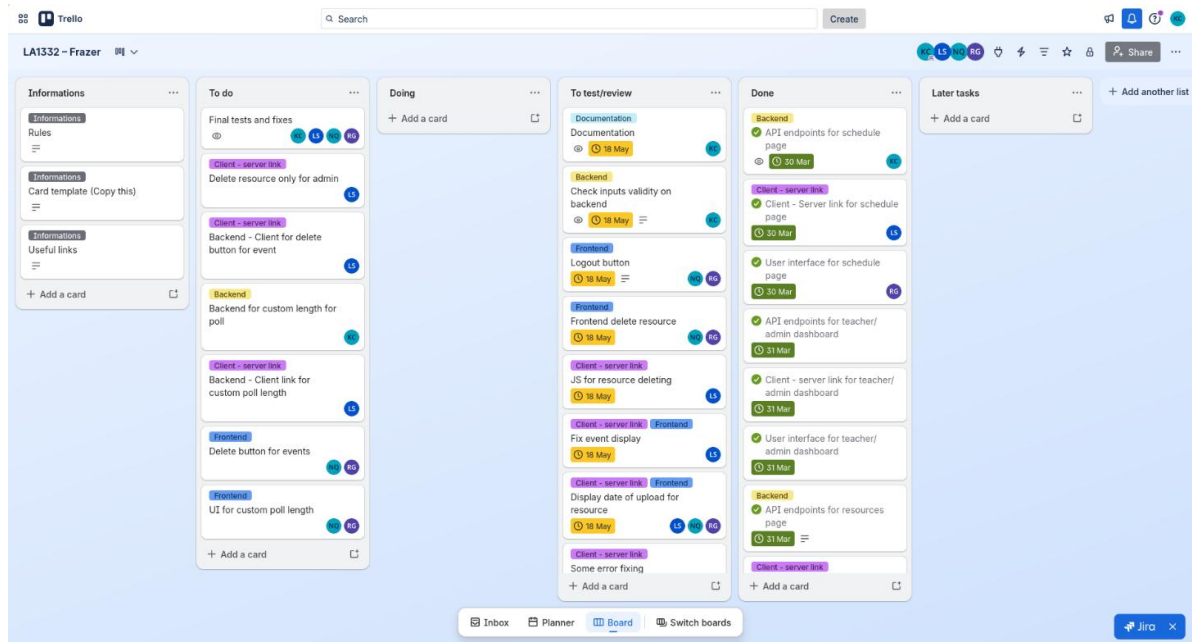

UC-06 Create and Manage Class Group:

- Only Professors can access this feature. **Implemented**
- The new group appears immediately in the sidebar. **Implemented**

UC-07 View Class Timetable:

- Grid is responsive. **Implemented**
- Events do not overlap visually. **Implemented**

Task board snapshot

Known defects / open items:

- Add a button to delete user created events
- Make the resource deletion button only available to admin
- In app error display
- Modifiable poll duration

Final sprint plan:

- Add a button to delete user created events
 - o Owner: Laurick
 - o DoD: User can delete an event created by another user
- Make the resource deletion button only available to admin
 - o Owner: Nihad
 - o DoD: Only admin can delete a resource
- In app error display
 - o Owner: Rashad
 - o DoD: Errors are displayed on the page and not as alerts
- Modifiable poll duration
 - o Owner: Kristen
 - o DoD: User can set the poll duration
