

Whatsapp

Link: [https://www.whatsapp.com/]

Type: web app / mobile app

Target users (observed): regular people

What's good :

- You can share location
- Messaging

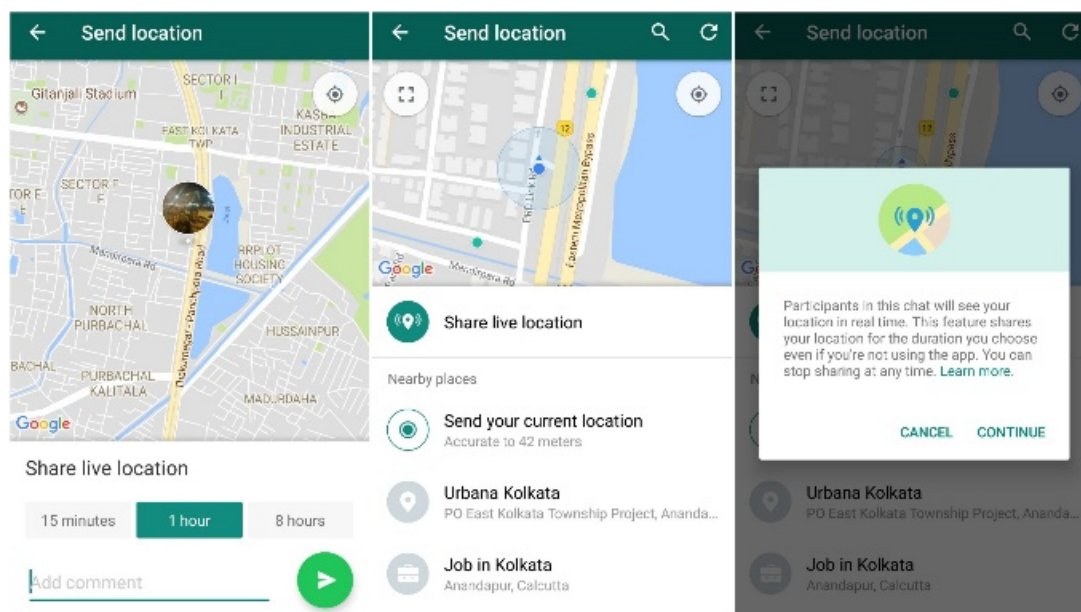

What's missing :

- Built-in channels
- Event creation

What we will adopt / do differently :

- Use the location for events
- Add built-in channels

Evidence :

Discord

Link: [<https://discord.com/>]

Type: web app / mobile app

Target users (observed): gamers

What's good :

- Servers with channels
- Roles for moderation

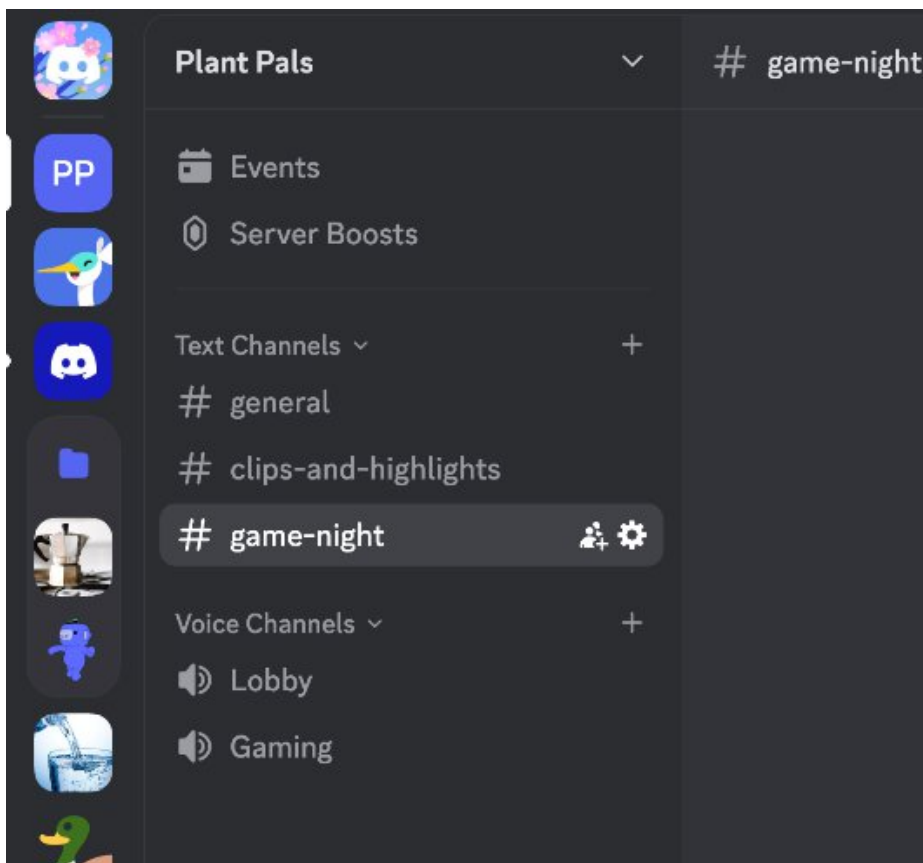

What's missing :

- Timetable
- Proper event creation system

What we will adopt / do differently :

- Server with channels
- Roles for moderation

Evidence :

Microsoft Teams

Link: [<https://teams.microsoft.com/>]

Type: web app / mobile app

Target users (observed): professionals

What's good :

- Timetable
- Events creation

What's missing :

- Paid
- UI not welcoming

What we will adopt / do differently :

- Timetable
- Welcoming UI
